The Math and Writing Center is a space designed to help you **practice your math and writing skills** outside of the classroom.

It's like a gym on campus; only instead of exercising your body, you **exercise your mind** by building strong muscles in math and writing.

**What we offer**  
One-one-one consultation sessions in math and writing

**Workshops** to help you advance your knowledge and sharpen your skills

**Who can visit the Center?**  
All undergraduate and graduate students from *any* program or course

## The **Do's** and **Don'ts** of Our Service

### Why Use the Service

You **have idea-rich conversations** with our consultants who help you come up with your own answers.

You **rethink the way you have approached your task**, clear confusion, and move forward.

You **build confidence** by attending sessions regularly.

You **enjoy ongoing support** — our staff serves your needs every step of your academic experience at AUA!

✓ *Our Writing Consultants can help you with:*

- **Any type of writing assignment** (essays, reflections, statements of purpose, papers, etc.)
- **Questions at any stage of writing** (brainstorming, creating an outline, drafting, etc.)
- **Any type of writing concern** (formulating a thesis statement, organizing your paper, avoiding plagiarism, etc.)

*Our Math Consultants can help you with:*

- **Studying** theories and solving math problems.
- **Preparing** for quizzes and exams.
- **Reviewing** homework assignments and exam results.

✗ *What our consultants cannot do.*

- Write for you or solve math problems for you.
- Act in place of your instructor.
- Proofread and edit for you.
- Guarantee an error-free paper.
- Promise high grades.
