

The Math and Writing Center

Fill in the skill gaps. Build on your strengths.

The image features a central text box with a white background and a thin grey border. The text is centered and reads: "The Math and Writing Center is a space designed to help students practice their math and writing skills outside of the classroom." The words "designed to help students practice their" are in a bold, yellow, sans-serif font, while the rest of the text is in a bold, dark blue, sans-serif font. The background of the entire image is a light grey line-art illustration of a desk setup. At the top, there's a desk with a handle and some papers. At the bottom, there's a keyboard, a mouse, and a tablet. The overall style is clean and modern.

*The Math and Writing Center is a space
designed to help students practice their
math and writing skills
outside of the classroom.*

One-on-one consultation sessions

Interactive group workshops

**Students exercise their mind by
building strong muscles
in math and writing.**

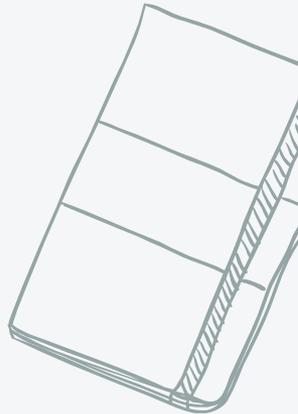

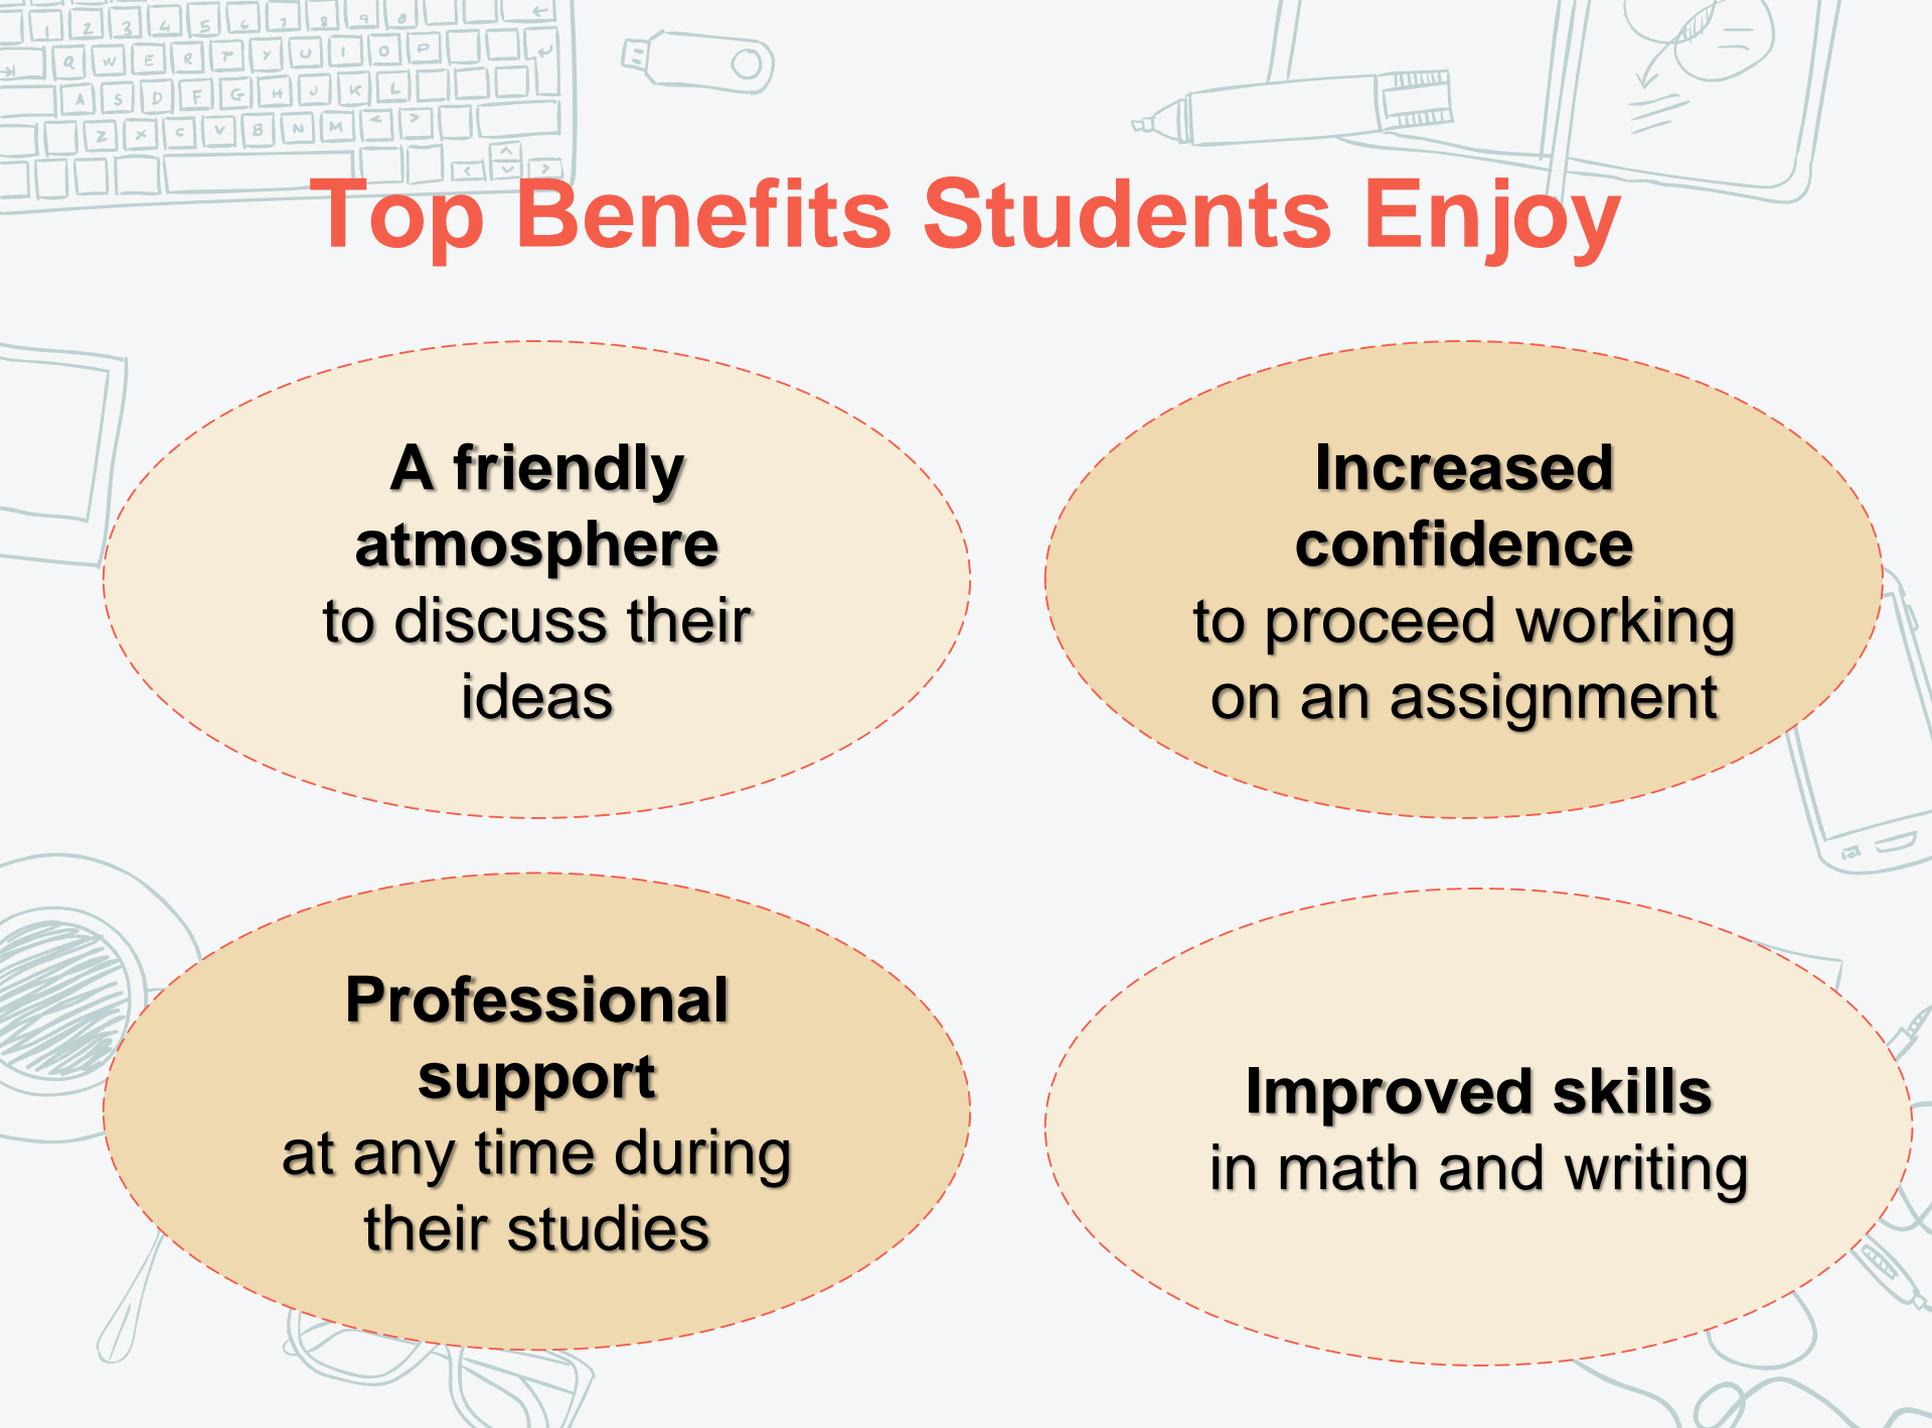

f_x

Visit early. Visit often.

We help students meet not only their **short-term goals** (having an improved paper or solving a math problem), but also attend to their **long-term objective** of becoming an **analytical thinker, confident writer, and effective communicator.**

Top Benefits Students Enjoy

A friendly atmosphere
to discuss their ideas

Increased confidence
to proceed working on an assignment

Professional support
at any time during their studies

Improved skills
in math and writing

The Do's and Dont's of our Service

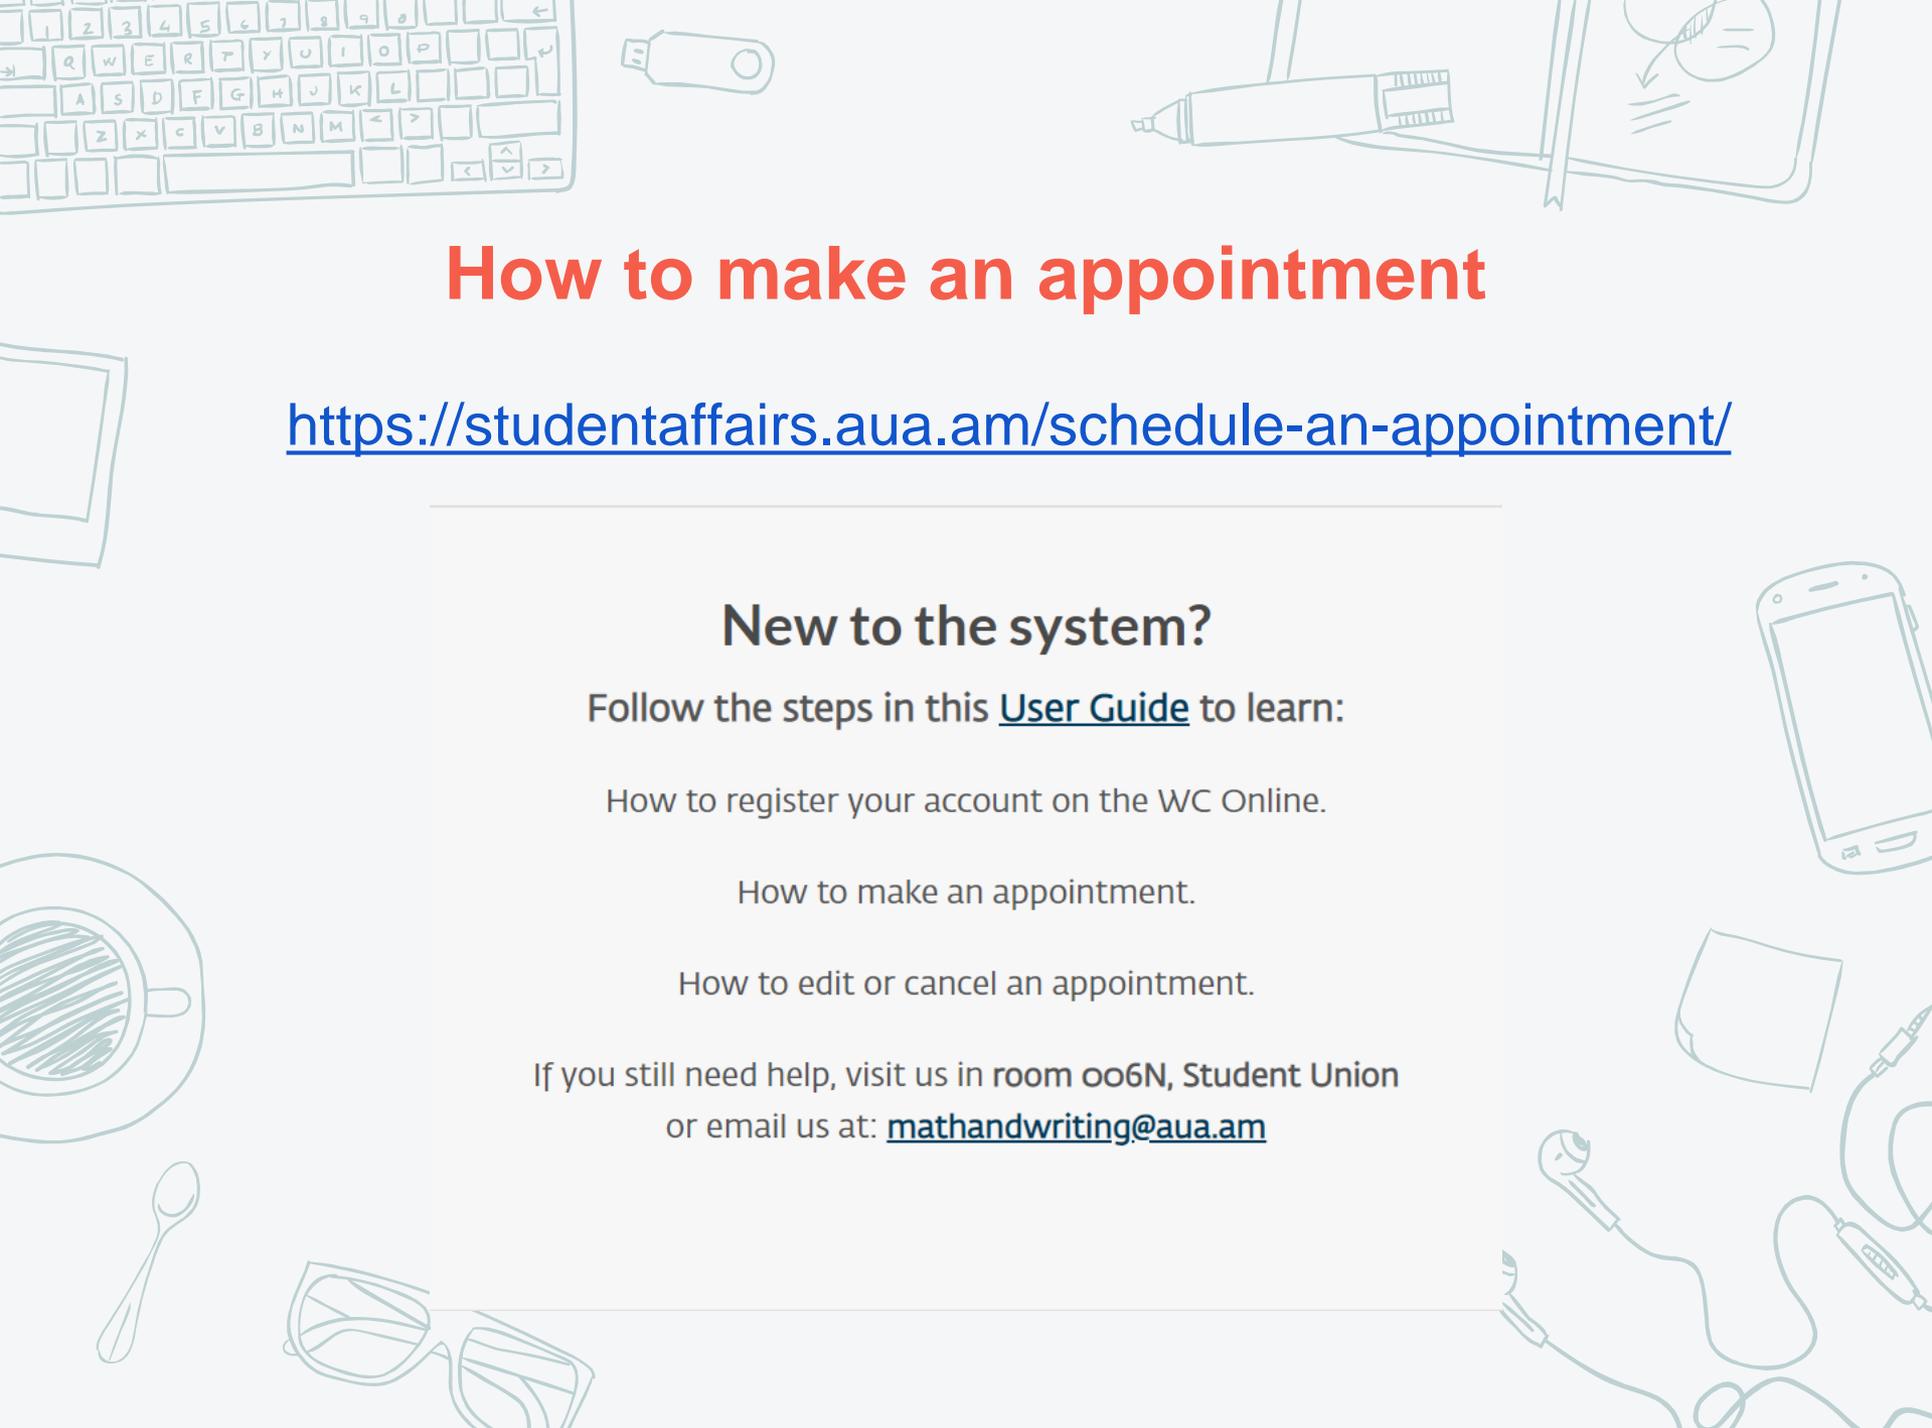

- We don't write or solve math problems for students.
- We are not proofreaders, but we will **guide students through the revision process and help them learn strategies to edit and proofread on their own.**
- We don't grade papers. Instead, we work collaboratively with students **to help them improve both their paper and their overall writing.**
- We won't guarantee error-free writing, but we will make sure **students feel more confident to proceed working on their assignments.**
- We are not experts in specific disciplines. However, we know the conventions of academic writing and can **help students with various aspects of their writing.**

Why should you **encourage** your students to use the Math and Writing Center services?

- ✓ Your students get an **extra set of eyes** to look over their assignments.
- ✓ Your students will practice their math and writing skills with **professional support and within a friendly atmosphere.**
- ✓ Your students will enjoy the benefits of one-on-one consultation sessions **catered to their learning style and needs.**
